

At Flex, we welcome people of all backgrounds. Our employees thrive here by living our values: we support each other as we strive to find a better way, we move fast with discipline and purpose, and we do the right thing always. Through a respectful, inclusive and collaborative culture, a career at Flex offers the opportunity to make a difference, invest in your career growth and join our purpose -- to make great products that create value and improve people's lives.

To support our exceptional team, in **Hägglingen / AG** we are looking for you - a motivated, conscientious and open-minded person who will be an asset to the existing team. Ideally, we would welcome you in April 2026.

Tooling Technician 100% (a)

The following tasks await you:

- Maintenance and servicing of injection moulding tools
- Carrying out minor repairs to the injection moulding tools
- Support on the injection moulding machines regarding the injection moulds
- Analysing tool problems and then rectifying them
- Reorganisation and implementation of spare parts stock management
- Optimization of injection molding tools

This is what you bring with you:

- Successfully completed training as a Polymechanic EFZ specialising in mould making
- Sound experience of injection moulding is an advantage
- Very good written and spoken German, written and spoken English communication skills an advantage
- Ability to work in a team, independence, flexibility and openness to change

We offer you:

- Detailed induction training
- Flexible working hours
- E-Loading Stations
- catering option
- minimum 25 Vacation Days

Do you see yourself in this role? Any questions? If not, there's nothing stopping you from sending us your application electronically.

We look forward to meeting you in person!
