

At Flex, we welcome people of all backgrounds. Our employees thrive here by living our values: we support each other as we strive to find a better way, we move fast with discipline and purpose, and we do the right thing always. Through a respectful, inclusive and collaborative culture, a career at Flex offers the opportunity to make a difference, invest in your career growth and join our purpose -- to make great products that create value and improve people's lives.

To support our exceptional teams who develop outstanding products and contribute to our growth, we are looking for a Production Manager (a) in **Hägglingen**, Aargau.

As a member of the leadership team, in your role as **Production Manager (all genders)** you will report to the **Head of Operations** and be responsible for leading approximately ~ 50 employees working in a 3- and 4-shift operation.

Production Manager 100% (a)

What a typical day looks like:

- Lead and develop a “best in the industry” team, with a strong focus on Lean Management, shop floor management and daily meetings;
- Coordinate closely with Planning, Quality, Automation and the Toolshop;
- Ensure compliance with applicable laws, standards and internal requirements (ISO 9001, ISO 13485, ISO 14001, ISO 45001, RBA, FDA Registered);
- Drive continuous improvement processes (CIP);
- Take responsibility for budget and resource planning within Operations.

The experience we're looking to add to our team:

- We are looking for a visionary leader with solid Operations experience, a strong drive for execution and a passion for exploring new ways of working together with the team while anticipating and preparing for future growth;
- Operations is in your DNA and close to your heart;
- Ideally, you have a technical background in plastics, injection molding and/or automation, combined with a higher technical education (University of Applied Sciences or equivalent), preferably in Engineering, Mechanical Engineering or Process Engineering. An MBA or EMBA is also welcome;
- Several years of industrial and leadership experience, ideally in precision injection molding, highly automated manufacturing environments and ISO 13485;
- Very good German and English skills; additional languages are an advantage;
- Strong interest in new technologies such as AI and Smart Factory solutions;
- Entrepreneurial mindset, strong leadership skills and excellent communication abilities.

What you will receive for your good work:

- We serve an exciting and meaningful market. The products we manufacture help millions of people around the world every day with the prevention, early detection, diagnosis and monitoring of diseases. This is what gives our work a deeper purpose;
- We have an exciting and positive growth journey ahead of us;
- A strong, inspiring and unique company culture;
- A professional and modern working environment with free parking and EV charging stations;
- Comprehensive onboarding and training;
- Access to personal and professional development opportunities;
- A competitive compensation package.

We look forward to receiving your application!
